

Lace Uses Varied

By SUE SEAY

Lace... an undeniably year-round fabric... is turning up in the strangest places. The season's fabric, given spice by each individual designer, moves gracefully from season to season. This summer lace will even invade the sports world.

COTTON LACE

Cotton lace has been fashioned into a button-down shirt to wear with black linen shorts, gay buccaneer pants to be worn with a matching sleeveless top and slim, sleeveless button-front shirtwaists... sporty enough for a baseball game.

The most intricate lace patterns, executed by a new lace machine (the nearest thing to handmade laces ever made by machine) are being offered in a variety of designs, old and new, in silks, cotton and durable modern synthetics.

The choice of lace and lace trimmed costumes is wide.

Answer to the inevitable day when lunch and shopping precede that important dinner date is a slim black and white checked gingham dress with black chantilly lace over a camisole of the check.

Narrow val laces, usually white and usually ruffled, is used to decorate many of the summer's sheer cotton evening dresses in delicate pastel shades.

TOMATO RED

One, far from pastel dress, a tomato red cocktail dress of French handclipped chantilly (handclipped but machine-made), will take the wearer through the balmy summer evenings into next year's Yuletide festivities.

One yellow and white re-embroidered lace sheath has its own cashmere sweater trimmed in lace.

For the vacation traveler lace has its advantages too... it's packable and adaptable to any vacation attitude, from the dude ranch to the French Riviera.

Machine-made lace turns up as button-down shirt to wear with shorts.
